FLOWERS & HORTECH

UKRAINE 2011

Flowers & HorTech Ukraine is supported by the All Ukrainian Union of Planting Material Producers.

The All-Ukrainian Union of Planting Material Producers was founded in 2004 to assist in the development of the nursery sector in Ukraine. It counts 89 members that maintain close ties with each other to exchange experience in between.

The Union of Planting Material Producers is very active to cover the main goals which include: the promote a stable policy of funding, financing and taxation of planting material in Ukraine, assist in implementation of new developments in the production of planting material, cooperation in this regard with relevant scientific institutions, organizations and companies.

The Union of Planting Material Producers protects interests of the members in state and local governments. Along with this it is an organizer of professional training courses, congresses and conferences in Ukraine in which Ukrainian and international specialists of the landscape and nursery industry participate. The Union of Planting Material Producers is an active participant of foreign and local exhibitions - the Union expands its scope, it is in the very centre of events in the landscape and nursery fields and obtains the up-to-date information about the industry. In 2011 they will participate at Flowers & HorTech Ukraine with their own collective stand!

Flowers & HorTech Ukraine; the most important platform for the entire horticultural sector in Ukraine!

During the 2010 edition ca. 140 companies exhibited from 14 countries around the world, occupying ca. 3.000 square meters of indoor exhibition space. Flowers & HorTech Ukraine has built up a solid position as the only true international trade event for the entire Ukrainian horticultural sector. During the 3 days of the exhibition we welcomed 8.587 (trade)visitors.

"Flowers & HorTech Ukraine 2011" will be the appropriate place to meet new business partners, update your market-information and handle sales-agreements personally.
